SIRONIX
Orthobiologics

BioleVox™

HYALURONIC ACID INJECTIONS FOR BETTER MOBILITY

Viscosupplementation is a scientifically and clinically approved therapy for reducing joint pain, improving functional condition of OA affected joints and delaying the disease progression of Osteoarthritis.

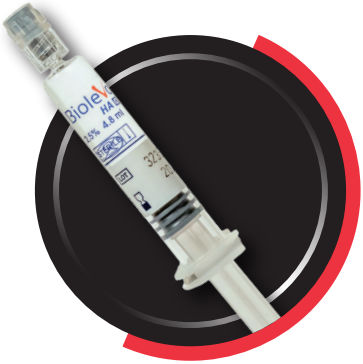

BioleVox™ HA one

SIRONIX Orthobiologics

Highest concentration of HA in a single injection – 120 mg in 4.8ml

Indications:

Pain and decreased articular mobility associated with traumatic or degenerative changes including osteoarthritis.*

Administration:

Single intra-articular injection.

Patients have the greatest advantage from HA with optimally high molecular weight as only this possesses the ability to exert anti-inflammatory, analgesic & chondro-protective effects.

*As per IFU
